Re: Supreme Court ADM 2003-04

Dear Clerk and Justices,

This proposal seems dangerous to me. I can barely read and understand legal stuff right now. I fear that by the time I learn to file a motion that I will be unable to file. I can't afford legal help. Things are getting worst in our law libraries and more restrictions are going to mean less justice, and protection of our legal rights.

Thank you!

P.S.

I collected four letters from other prisoners. They are enclosed. Some did not have envelopes, others wanted to send this little packet.

Thank you allowing us opportunity to express our oppinions.
